

I-35 at County Road 305

Project Overview: The project will reconstruct the County Road 305 bridge and realign County Road 304 East to connect to the newly constructed bridge. Pedestrian enhancements will also be made within the project limits.

Length: 1.3 miles

Construction cost: \$7.7 million

Construction start: September 2018

Estimated completion: Winter 2020, weather permitting

Project Update:

- **Upcoming work:** Constructing County Road 305 bridge, frontage road gap work, retaining wall work, bridge deck work, County Road 305 bridge beam set and deck pour
- **Work completed:** Set up work zone. Completed north and southbound I-35 frontage road detours and began bridge work.
