

# I-35 IN KYLE IS GETTING AN UPGRADE!

Beginning in September, drivers traveling along northbound I-35 from RM 150 to Kyle Crossing will see changes along the corridor as TxDOT reverses the northbound I-35 entrance and exit ramps, reconstructs the bridge over Plum Creek and constructs improvements to the northbound I-35 frontage road.

To learn more information about the project and stay up to date on lane closures, visit [My35Construction.org](https://www.my35construction.org).

**We know you've got to get where you need to go.**

I-35 from RM 150 to Kyle Crossing has a high volume of traffic and congestion. This ramp reversal project will help reduce backups and traffic queuing along the mainlanes. As crews continue to work near this stretch of I-35, we're committed to being a good neighbor by keeping you informed.
