Project Overview: The project will reconstruct and reconfigure the I-35 at Posey Road interchange for safety and mobility in Hays County. The project will also provide additional travel lanes through the frontage road intersections, adding U-turn lanes and each direction, reconfiguring ramps and converting frontage roads to one-way.

Length: 2.5 miles

Construction cost: $31.8 million

Construction start: February 2019

Estimated completion: Late 2021, weather permitting

Project Update:

MSE wall work
